

WAYPOINT
TRADING SOLUTIONS

WAYPOINT WAYFINDER

A market data notification management solution.

Waypoint Wayfinder helps financial firms manage exchange and vendor change notifications more efficiently. Built on Waypoint Data Notification Manager (DNM), it consolidates notices from emails, newsletters and web sources into structured summaries that teams can search, review and route for action.

Improve visibility.
Prioritize relevant updates.
Simplify Review.

The solution brings source-level detail, configurable rules, targeted filtering and workflow tools into one portal. Waypoint also uses Wayfinder internally to support exchange data change management across its production network.

Features

Centralized Notification View

Brings exchange and vendor notices into one platform.

Source-Level Detail

Links summaries to original notices and related vendor information.

Structured Summaries

Uses AI-supported processing with human review to organize unstructured notices.

Operational Use Case

Supports Waypoint's internal exchange data change management processes.

Configurable Filtering

Helps teams review notices by exchange, type, date and relevance.

Workflow Management

Supports task assignment, routing, status tracking and audit trails.

Benefits

WAYPOINT
TRADING SOLUTIONS

Simplify Review

Reduce manual effort spent reviewing emails, newsletters and web-based notices.

Prioritize Relevant Updates

Help teams focus on notices aligned to their business and market data environment.

Improve Visibility

View exchange and vendor changes, including LSEG and Bloomberg notifications, in one workflow.

Support Accountability

Assign ownership, monitor progress and document actions through resolution.

Manage Change Risk

Help identify protocol, fee, product and connectivity updates that may affect operations or costs.

Build on Established Use

Use a platform that has supported market data operations for large financial institutions.

Ready to streamline market data change?
