February 2019

Welcome to Transact

Welcome to the first issue of Transact for 2019. There has been lots happening here at TNS and this issue brings you updates and information on our latest acquisitions, upcoming events you can find us at and some new resources we have available.

If you would like to know more about any of the subjects covered in this issue, please do not hesitate to get in touch with your account manager or email solutions@tnsi.com.

Dan Lyman

Head of Business Development, Americas, FinTech Solutions

TNS Expands with South American Acquisition

TNS is expanding into Brazil through the acquisition of mobile and Internet of Things (IoT) communications specialist Link Solutions. The family-owned business has over 500,000 Link managed SIMs which, when combined with TNS' own SIM network, means TNS now manages almost a million SIMs around the world.

Join TNS at the 20th ATMIA US Conference, February 19 – 21

Come and see us at Booth #509 at the ATMIA's annual US Conference at Disney's Colorado Springs. Dan Lyman will be speaking at 2.45 on February 20th about how evolving consumer behavior is impacting the demand for ATMs.

To book a meeting with us during the event email solutions@tnsi.com

Are You Affected by 2G and 3G Networks Shutting Down?

As 4G technology is now widely available operators are turning off 2G and 3G networks to free up resources and reassign spectrum.

TNS Acquires OpSiSe SAS

TNS is delighted to have acquired the assets of OpSiSe SAS, based in France. The OpSiSe platform includes a set of online tools, reporting and mobile application capabilities that our payments clients can utilize to manage and monitor POS terminal estates, analyze transaction flows and service their merchant customers more effectively. We will be sharing further information shortly.

Being a retailer has never been more demanding

Technological and behavioral changes are happening faster than ever

Data consumption requirements have grown exponentially making 'always on' store networks essential

Compliance requirements related to taking payments are increasing

Pressure Mounts on Retailer Store Networks

Retailers globally are facing overwhelming pressures from technological and behavioural changes, the growth of data consumption requirements and the increase in compliance requirements. Our infographic shows how TNSLink for Retail can help overcome these hurdles.

The Payers Publishes TNS Insights

TNS' Mark Collins, Managing Director, EMEA, has appeared in The Payers recently with two contributing articles for its Thought Leader Insight series. Click here to read: [Make time to address 4G migration before it's too late](#) and [Does migrating to the cloud put payment data at risk?](#)

GWA Dual SIM Routers Help Customers Avoid Outage

Several TNS customers recently faced a disruptive unrelated telco outage but were able to keep accepting payments thanks to the deployment of dual SIM routers as part of our TNS Global Wireless Access Solution. In response to the issue the TNS service failed over as intended. To learn more about the reassurance dual SIMs provide, please contact your account manager or email solutions@tnsi.com

Visit TNS' ATMIA Showroom

TNS is pleased to renew its membership of the global board of the ATM Industry Association (ATMIA) and will continue to contribute toward its aims and objectives.

Visit our Showroom on the ATMIA website to find a summary of TNS key products and collateral.
