

# TNS: Your Trusted Partner for Connected Commerce

Over recent years, TNS has invested heavily in its Payments Market business and is now envied around the world for its diverse, feature rich portfolio of payments-related services. This infographic outlines our expanded offering and how we can help add value to your business.

## Investment, growth and strategic product development

TNS, a global infrastructure-as-a-service leader, has been enabling and powering payment strategies for businesses around the globe since 1990. During this time we have built a strong heritage and reputation based on innovation, resiliency and scalability.

TNS' extensive network is a cornerstone of the global payments landscape:

Transports over 34 billion payment transactions each year

More than 109,000 physical customer connections, enabling a further 734,000 connections within our community of interest

Leverages 114 data centers globally

Supports in excess of 1 million terminals and ATMs enabled with payment specific SIMs globally

Ultra-resilient, fully meshed and diverse global network with no single point of failure

## Our framework for customer success

Highly skilled, dedicated TNS professionals provide a fully managed service

## More than just a payments provider

TNS is proud to be a market leader and is trusted by hundreds of organizations globally. Our managed solutions help optimize your payments and networking infrastructure with a range of added benefits:

Provide your customers with added security reassurances with technologies like tokenization and point-to-point encryption

Improve efficiency and competitive advantage by more effectively connecting diverse branch locations with regional and head offices

Enjoy efficient network utilization which includes other critical communications like CCTV and inventory control, alleviate network congestion and expand your offer to include services like guest Wi-Fi
