

About Us

Demand More for Your Mission-Critical Trading

Access the future of trading infrastructure, connectivity and market data, to drive agility, reliability and a global competitive edge.

TNS has a strong foundation as an Infrastructure-as-a-Service (IaaS) provider to financial market participants. Delivered as a fully managed service, TNS provides an unrivalled mission-critical footprint that mitigates business risks and drives greater efficiencies. Be it ultra-low latency connectivity, global market data or high-touch 24x7x365 local support, TNS is trusted by noted financial services firms around the world.

Trade First

TNS introduced the first globally available ultra-low latency Layer 1 connectivity solution; combined with global market data, TNS provides unmatched exchange connectivity that delivers optimum performance and speed.

Ultra-low latency connectivity that's 10X faster than conventional Layer 3 solutions

Lowest commercially available latencies, between 5ns-85ns

In colocation managed hosting options

Trade Everywhere

Ensure international reach through our established and highly resilient worldwide network that has already facilitated growth for over 1,000 Financial Markets clients.
