

SOLUTION SHEET

Unattended Self-Service Payment Solution

Forget the complexity of multiple vendors. **TNS' Complete Commerce** is a single solution for your payments and connectivity needs.

Create a complete experience across your self-service terminals, reservation platform, and online customer interactions with our 100% terminal, acquirer, partner and network-agnostic approach.

Parking payments

Laundromat payments

Vending and kiosk payments

Transport and ticketing payments

• **Reliable connectivity**

Connect any unattended payment terminal, site or cloud environment via our secure managed service and ensure that transactions can be made rapidly and securely.

• **Payment orchestration**

We provide seamless transaction processing through our secure payment platform, allowing businesses to process and route any transaction type, to any endpoint, globally.

• **Unified insights**

Improve visibility with insights and reporting via online portals, so your enterprise can track alerts and easily troubleshoot. As well as manage transactions and create custom reports.

A Managed Service for Unattended Payments

Complete Commerce securely connects payment terminals, in-store networks and your self-service cloud environments, seamlessly. TNS manages the terminal hardware, equipment integrations and connectivity services for you.

• **Unattended terminals**

Our range of terminals feature easy integration and simple deployment – for any self-service business environment. We also support bring-your-own terminals. Use our bespoke terminals or bring your own for a seamless payment solution.

Accept Any Payment

Your customer should be able to pay in the way that's easiest for them. That's why TNS payment terminals securely accept most payment methods – from traditional card schemes to alternative payment methods.

Benefits

Easy payment processing

Our cloud-native payment platform for secure processing integrates into any acquirer/processor globally. It brings together unattended, in-store and online payment solutions, acquirer integrations, APIs, value-added services and portals through a single platform.

Fully managed, 24/7/365

We take care of every aspect of your payments and connectivity – so you can focus on your business. Our fully managed service includes 24/7/365 proactive monitoring, an always-on help desk with local experts, zero-touch updates and seamless installation.

Modular solution

Get a bespoke solution that works for you and your business. We design the best solution for your specific location, supporting integrations to your parking system, point of sale, vending machine or any other payment equipment.

Features

Enhanced security

Help your business secure sensitive data and maintain compliance with the latest security standards across payments and network connectivity, including: PCI DSS, PCI P2PE, PCI PIN certifications.

100% acquirer agnostic and smart routing

Bring your own acquirer or use multiple acquirers – for cost optimization, convenience, and no disruption to your business or your customers. Smart routing enables you to send transactions to the acquirer of your choice, based on BIN, card type and amount.

Simple terminal equipment integration

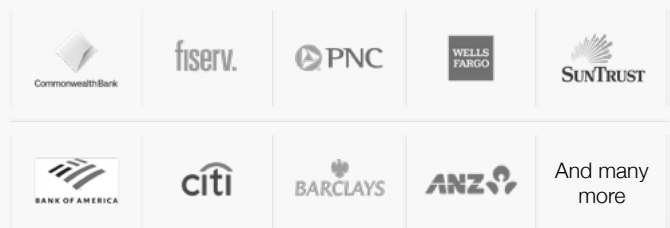

Our terminals, certified by leading acquirers and processors, are adaptable to a wide range of unattended payment environments. We make integration easy and hassle-free with our API library. Once integrated, our terminals accept all major payment methods and wallet schemes – providing your customers with a convenient and secure payment experience.

Fully managed connectivity

TNS solutions reduce complexity across your entire business. From protecting your terminals against outages to facilitating mission-critical payments, we have the solution that's right for your unattended needs.

Acquirer Certifications

Our terminals are certified with leading acquirers around the world – so you can trust that your payment processing needs will be met with the highest level of reliability and compliance.

Complete Commerce You Can Trust

More than 1,400 customers across 50 countries rely on TNS and its Complete Commerce infrastructure-as-a-service capability.

For more than 30 years, leading parking, laundrette, vending, transport and ticketing, petroleum and other self-service merchants have relied on TNS to enhance operational efficiency and increase revenue using our Unattended self-service payment solutions.
