

February 2025

Introduction

Welcome to our latest Xchange newsletter and the first of 2025.

Since our last edition, we have released lots of exciting updates and announcements. Below is a full overview to help you catch up on anything you may have missed.

In this issue, we begin by exploring the launch of a powerful new data usage optimization tool. You can continue reading to find highlights from a new Fireside Chat video, our latest blog postings and details on recent and upcoming events.

We hope you enjoy reading our latest Xchange. If you have any questions, please do not hesitate to email solutions@tnsi.com or speak to your Account Manager.

New Market Data Monitoring Solution for Banks and Hedge Funds with TNS Market Data as a Service

At the end of the year, we announced the launch of our new data usage optimization product called Data Usage Optimizer (DUO). The solution is designed to help buy side and sell side firms streamline market data costs and generate actionable market data usage reports to help achieve significant cost savings by pinpointing and deactivating unused data feeds. DUO is a unique solution that simplifies the increasingly complex management of data feeds, in turn providing a number of benefits to firms.

New TNS Fireside Chat

TNS' Rick Gilbody and Jeff Mezger recently recorded a fireside chat exploring a range of topics. Watch the video to discover the primary areas of focus for financial firms in 2025, what differentiates TNS in the market and the

TNS and Cboe Event

TNS, alongside Cboe Europe Global
Markets, hosted an exclusive event in
Amsterdam in December. TNS' Jeff
Mezger and Cboe's Henry Schwartz
discussed the rise of Dutch buy side
firms in the US options market. If you
would like to know more about accessing

AFX Completes Migration of Trading Platform with TNS

TNS has proudly partnered with the American Financial Exchange (AFX), a self-regulated exchange, facilitating a marketplace for banks and financial institutions to engage in overnight unsecured interbank lending and borrowing. TNS will provide full management and hosting services for AFX's data center. Read the full <u>press release</u> to learn more.

TNS' Steven Roe Featured in Finance Derivative and Data Center Review

Steven Roe, VP of Market Data Solutions at TNS, has recently seen two

Three Ways MSPs are Helping to Crack the Institutional Trading Code

Managed service providers (MSPs) are helping the next generation of fintech

articles published, in Finance

Derivative and Data Center Review. In the former, Steven addresses the challenges of legacy systems and market data growth, urging firms to evaluate their insourcing and outsourcing strategies. In the latter article, Steven discusses why firms should consider a one-stop-shop solution to simplify market data management.

innovators crack the code of hyperscale trading operations. Read the full <u>blog</u> <u>post</u>, by Jeff Mezger, VP of Product Management at TNS, to learn the three ways MSPs can help organizations focus on their core competencies and gain competitive advantage.

Upcoming Events

We hope to see many customers and partners at various events this year, including Acuiti's Trading Managers' Meeting in Chicago, IL this April followed by Amsterdam in May.
