**TNSPark Membership**

# A membership platform to simplify and grow **your parking business**

**Deliver seamless parking access and build loyalty with TNSPark Membership's flexible membership platform.**

With TNSPark Membership, you know who's parking with you – from customers to staff to transport operators. That means you can tailor access, assign rates and deliver personalized experiences through a single account.

Each parker gets a flexible profile with offers unique to them, while you gain the tools to automate payments, enable touch-free access and take full control of how your carpark operates.

**How it works:**

**From casual drive-ups to loyal customers, users can set up an account in just a few clicks.**

With TNSPark Membership, customers, staff, contractors and transport partners can:

Access touch-free parking access using a license plate, QR code, mobile pass and a wide range of access/ proximity cards

Pay automatically based on their selected payment method, from pay-as-you-go to prepaid with auto top-up and postpaid

Register online through your branded website

It's a faster, easier way to park – and a smarter way for you to manage your network. Behind the scenes, your team can:

→ Configure and assign access rights and pricing, giving staff, contractors and public users access that suits their needs

→ Create and manage tailored products, offers and promotions

→ View real-time customer activity, transactions and movement trends

## The benefits of TNSPark Membership

→ **Simplified parking and faster payments**

Users register once and enjoy seamless parking access and automatic payments, removing friction from every visit.

→ **Stronger operations and secure access**

Replace manual permit processes with digital validation, automate account management and track registered vehicles in real time.

→ **Smarter tools to drive new revenue**

Manage multiple parker types, build new drop-off and pick-up revenue streams, and launch special offers or promotions with ease.

→ **Centralized control and connected systems**

Manage events, customer accounts, subscription pricing and reporting from one portal.

→ **Better loyalty and tailored engagement**

Create specific groups for customers, staff or contractors, offer customized benefits, and use real-time insights to deliver experiences that keep users coming back.

### Who it's for
