

TNSPark Reservation

Take the hassle out of parking with our pre-booking platform

Transform your customer experience with TNSPark Reservation – TNS' flexible platform for prebooking parking and connected services.

- Build insights
- Sell and reserve multiple products
- Secure loyalty
- Improve customer experiences

TNSPark Reservation gives your customers a faster, easier way to secure parking, and gives you the tools to improve operations, reduce friction and build long-term loyalty.

From branded booking journeys, to seamless entry and tailored promotions, you can build better, more convenient control into a single, smart system.

How it works:

A faster, smarter way to manage parking bookings.

With TNSPark Reservation, customers can secure parking before they arrive, through a simple online journey. They can:

Find and book parking in advance

Pay securely using cards or digital wallets

Earn loyalty rewards and track past bookings via their account

Save time with seamless access via licence plate, QR code, mobile pass and more

Add extras like valet, car wash or fast track

It's a faster, more flexible way to park, and easier for your team to manage.

Behind the scenes, you stay in control of the full experience. Through the administration portal, you can:

- Set and adjust pricing, products and availability
- Launch promotions and upsell offers
- Monitor bookings and usage in real time
- Integrate with your CRM, financial and third-party systems

The benefits of TNSPark Reservation

→ Simplify bookings

Customers prebook online, access parking seamlessly and avoid lines altogether. Payments are fast, digital and secure.

→ Central control

Manage bookings, customer accounts, pricing and reporting from one place – with full visibility across all sites.

→ Smarter sales and yield control

Customize pricing, run promotions and upsell services based on demand, lead time or occupancy.

→ Connected tools

Third-party integrations and real-time data help you optimize operations, connect systems and understand customer behavior by using data analytics to drive stronger business insights.

→ A better customer experience

Add-on services like valet or fast track, plus loyalty points and mobile wallet access, create a premium parking experience.

→ Fully customizable UI

TNSPark Reservation is a white label application platform allowing you to maintain your brand and customize the entire front-end to align with your corporate identity.
