Introduction

Welcome to our latest Xchange newsletter.

We are delighted to have recently announced our agreement to acquire BT's Radianz business and look forward to sharing more on this in due course. In the meantime, we have released lots of exciting updates and announcements since our last edition. We begin this issue by sharing that TNS has recently expanded its portfolio of after-hours trading venues with the addition of Bruce ATS and MOON ATS. You can also read about new services in Zurich, our latest Fireside Chat episode, a joint podcast with Exegy, details on recent and upcoming events and more.

We hope you find the content in our latest edition interesting. If you have any questions, please do not hesitate to email solutions@tnsi.com or speak to your Account Manager.

Tom Lazenga

General Manager, Financial Markets

TNS Connects to MOON ATS

TNS has announced new market data connectivity to MOON ATS, the after-hours equities trading venue from OTC Markets Group. MOON ATS aims to address the growing global demand for extended trading hours, with a particular focus on serving institutional and retail traders in Asia. Read the full [press release](#) to learn more.

TNS Connects to Bruce ATS

In addition to MOON ATS, TNS has further expanded its portfolio for 24x5 equities trading solutions by announcing connectivity to Bruce ATS, a new overnight trading venue operated by Bruce Markets LLC. Read the full [press release](#) to discover how this new connectivity gives trading firms the reach and resiliency required for modern trading.

TNS Expands European Presence with Equinix ZH4 Colocation in Zurich

In this press release, TNS announced the expansion of its European exchange footprint by launching services in the Equinix ZH4 colocation data center in Zurich, enabling managed hosting and ultra-low latency Layer 1 exchange connectivity to SIX Swiss Exchange. Read the full press release to learn more about how as a registered data vendor and application service provider with SIX, TNS offers its solutions at a lower overall cost compared to a DIY approach.
